

87 Smiths Road SPRINGHURST VIC

5 **1**

This home has loads of character and loads of space. Kitchen has both slow-combustion wood stove with hot water through it plus upright electric stove. Hot water can be electric as well. Availability of water is not an issue and watering the garden is a pleasure as there is a large dam for this purpose. There are 5 bedrooms available although not all these rooms have BIRs. The bathroom is very retro and looks like the height of 60's fashion. At the back of the home is a long sunroom area available for any indoor use.
